

It's so hot...
I can't wait to go
home and play game!

OH!

Mummy,
why are
you home?

I'm
working
from home
today!

I cannot
play games
anymore...

Since it's so hot today,
you should go to the solar-panel
powered rooftop library on top of
our HDB building!
It's very cooling!

VERY COOL LIBRARY

solar-panel
powered

"Mom told me
to come here."

Solar panels absorb
the heat and light
energy off the roof.
That's what makes
the building and this
library so

COOL!

WOW!
This is indeed
a very

COOL

library
